26159 Dulay Rd NE, Kingston, WA 98346

KITSAP ENVIRONMENTAL COALITION

**PRESENTS**

## **Beyond Climate | Dr David Suzuki**

**Beyond Climate** takes viewers beyond the headlines and into the heart of the issues. The film holistically connects the larger patterns of climate change with the human dimension, and what it looks like from across the Salish Sea to the Okanogan Valley. Dr. David Suzuki - renowned scientist, broadcaster and environmentalist - helps guide the journey as the narrator of the film.

We continue with Katharine Hayhoe's TED Talk **The most important thing you can do to fight climate change: *talk about it.***
